Breach of Testing Security Procedures

It is the responsibility of the school system to establish a secure testing environment for all assessments. Open lines of communication should be maintained to encourage suggestions for improvements in testing procedures and for reporting any possible testing impropriety. Upon receipt of any information concerning a possible breach of testing security, the school and system must initiate an immediate and thorough investigation into the circumstances of the event. The following chart is provided for guidance in handling potential breach of testing security concerns. Questions should be directed to the State Evaluation and Assessment Director at (615) 741-0720.

Immediately report a potential breach of testing security to the System Testing Coordinator and the State Evaluation and Assessment Director.

The system and school must conduct an immediate and thorough local investigation of the incident.

Notify the State Evaluation and Assessment Director that a testing security breach did not occur.

Notify the State Evaluation and Assessment Director that a testing security breach occurred.

Re-train staff on Test Security Law and local policies; consider revision of policies and procedures to avoid further problems.

Immediately suspend the offending personnel and report this action to the Director of Teacher Licensure at (615) 532-4880.

Consult with the State concerning possible additional actions, such as revocation of personnel's State teaching license.

Student test impacted.

Student test **NOT** impacted.

Make test processing recommendations (Process Normally, Nullify or Void) on an RI and/or Breach form.

Complete a Breach of Testing Security Report form with documentation of the investigation and results, including actions taken, and submit the form to the State. Review local policies and procedures for revisions and re-train staff to avoid further infractions.

2003–2004 TCAP Allowable Accommodations

Any departure from standardized test procedures can potentially invalidate the test results. **The test validity is seriously threatened by accommodations that change the nature of the task being tested.** TCAP Allowable Accommodations are available for use by all students as noted below. Multiple TCAP Allowable Accommodations may be used. TCAP Allowable Accommodations are specifically defined as follows.

- **Modified Format Tests:** This refers to Large Print and Braille tests. Any modified format test must be requested in advance. Large Print and Braille tests may have special administration instructions because the test may vary from the standard print test. "Readers" for illustrations and graphs are also permitted with the Braille and Large Print editions of the TCAP assessments. Students using "Readers" must have Visual Impairment verified on the IEP. Extended time for students using Braille and Large Print tests is not permitted unless required conditions for **Special Accommodation B** are met. See Section III, Braille Test and Large Print Tests, for processing instructions.

- **Oral Instructions Delivery:** Directions normally read aloud to students may be signed verbatim for students with hearing impairments. Only spoken portions of the directions may be signed.

  Directions normally read aloud or signed to students may be re-read/signed verbatim as needed.

- **Calculator:** A calculator is permitted on EOC Math Foundations II and Gateway Mathematics Tests. See Section V, Calculator Use, for calculator restrictions.

- **Flexible Setting:** Students may take the EOC and Gateway Tests in an individual or small group setting, seated in a designated area of the room, in a study carrel, or in the special education classroom. Homebound students may take the test at home or another approved location with appropriate documentation.

- **Visual/Tactile Aids:** Aids may include magnifying devices, use of templates to reduce the amount of visible print on a page, masks, pointers, and abacuses.

- **Auditory Aids:** Auditory aids include amplification devices and devices that are used as noise buffers.

- **Flexible Scheduling:** EOC Tests are timed and the administration must remain within the overall time allotted. Gateway Tests are untimed and the student may take as much time as needed to complete the test. EOC and Gateway Tests may be given in smaller segments. Breaks taken by the student during the testing period must be closely supervised.

  Note: Any test on which Flexible Scheduling is used must be completed in one school day.

- **Scribe/Recording Answers:** Students who cannot mark their own answer documents may use an impartial Scribe. A Scribe may be used to record responses or to transcribe the student's answers from a modified answer document or test booklet. Students who cannot utilize the answer document may record directly in the test booklet or on a separate piece of paper. Ensure that the student's name, Social Security Number, school, system, and teacher name are written on the front cover of the test booklet. The student's answers must be transcribed to a regular answer document and placed with documents to be scored. Place the marked test booklet under a completed Inactive Test Material (ITM) form and mark the appropriate box on the form.

Special Accommodations may be used only if indicated on the student's IEP or 504 Service Plan. Students may use multiple Special Accommodations if they meet all of the required conditions. The answer document displays only the Special Accommodations permitted for the assessment. Bold letters correspond to the answer document coding.

Special Accommodations				
B	C	D	F	I
○	○	○	○	○

B   Extended Time for Students with Visual Impairments

This accommodation does not apply to Gateway Tests as they are untimed.

Test Administrators must verify the circle for **Special Accommodation B** is darkened on the answer document to signify that the student used this accommodation. *Test Administrators must confirm that the student has met the required conditions for use of this accommodation and verify that the circle for the number of hours that the student receives special education services is darkened on the answer document.*

This accommodation may be used with all assessment materials, including Braille, Large Print, and regular print tests. This accommodation may be used along with visual aids, such as masks, pointers, and templates. Accommodation B applies to students receiving special education services only, and must be documented in the student's IEP. The amount of extended time must be determined by the student's IEP Team. No test should be administered for more than 75 minutes without allowing for a 10-minute break. Breaks taken by the student during the testing period must be closely supervised.

C   Read Aloud/Sign Internal Test Instructions

Test Administrators must verify the circle for **Special Accommodation C** is darkened on the answer document to signify that the student used this accommodation. *Test Administrators must confirm that the student has met the required conditions for use of this accommodation and verify that the circle for 504 Service Plan or the number of hours that the student receives special education services is darkened on the answer document.*

The appropriateness of reading accommodations must be verified through individualized assessments given within two years of the TCAP assessment. Special Accommodation C may be used by students scoring at or below the 16th percentile (84 standard score) on an individualized standardized test of reading and/or by students who meet eligibility standards for a Visual and/or Hearing Impairment. Group achievement tests such as the TCAP Achievement, Iowa Test of Basic Skills, or Stanford Achievement Tests are not acceptable measures for determination of the student's achievement level for use of Special Accommodation C.

If the required assessment results are not available within two years of the TCAP assessment, and the IEP Team or 504 Review Committee agrees this accommodation would be appropriate, it will be necessary to administer the basic reading (word recognition) skills and/or comprehension sections of an individual, standardized achievement test to the student. School personnel trained in individual achievement testing should administer this assessment. Document student scores in the space provided on the Accommodations Addendum.

Eligible students must receive this accommodation under the following conditions:

1. The student must be tested in an isolated area in which students who do not need the accommodation may not hear or see (signing) the test administration. This must be provided in an individual or small group setting with students needing the same accommodation.

2. Internal Test Items must be read exactly as they are written in the test book. Any variation from the text will invalidate the test.

D   Read Aloud/Sign Internal Test Items

For students with an IEP or 504 Service Plan, **Special Accommodation D** may be used on the following EOC and Gateway Tests: EOC Math Foundations II, Gateway Mathematics and Gateway Science. It may be used on EOC US History and EOC Physical Science Tests during the field testing for Spring 2004.

Special Accommodation D may also be used on the EOC English I and Gateway Language Arts Tests **only under the following specific requirements for students who have this accommodation on their IEP.** The use of Special Accommodation D on the EOC English I and Gateway Language Arts Tests may be used by students with an IEP who meet the requirement of scoring at or below the 16th percentile (84 standard score) on an individualized standardized test of reading and/or by students who meet eligibility standards for a Visual and/or Hearing Impairment. Accommodation D should be appropriate and consistently used during regular instruction, including reading and language arts.

Note: Regulations under NCLB do not extend use of Accommodation D to tests measuring reading/ language arts for students with 504 Service Plans.

The appropriateness of reading accommodations must be verified through individualized assessments given within two years of the TCAP assessment. Group achievement tests such as the TCAP Achievement, Iowa Test of Basic Skills, or Stanford Achievement Tests are not acceptable measures for determination of the student's achievement level for use of Special Accommodation D.

Test Administrators must verify the circle for Special Accommodation D is darkened on the answer document to signify that the student used this accommodation. *Test Administrators must confirm that the student has met the required conditions for use of this accommodation and verify that the circle for 504 Service Plan or the number of hours that the student receives special education services is darkened on the answer document.*

If the required assessment results are not available within two years of the TCAP assessment, and the IEP Team or 504 Review Committee agrees this accommodation would be appropriate, it will be necessary to administer the basic reading (word recognition) skills and/or comprehension sections of an individual, standardized achievement test to the student. School personnel trained in individual achievement testing should administer this assessment. Document student scores in the space provided on the Accommodations Addendum.

Eligible students must receive this accommodation under the following conditions:

1. The student must be tested in an isolated area in which students who do not need the accommodation may not hear or see (signing) the test administration. This accommodation must be provided in an individual or small group setting with students needing the same accommodation.

2. Internal Test Items must be read exactly as they are written in the test book. Any variation from the text will invalidate the test.

F   Talking Calculator or Electronic Device with Braille Display

Test Administrators must verify the circle for **Special Accommodation F** is darkened on the answer document to signify that the student used this accommodation. *Test Administrators must confirm that the student has met the required conditions for use of this accommodation and verify that the circle for the number of hours that the student receives special education services is darkened on the answer document.*

Special Accommodation F may be used by students eligible for Special Education with a Visual Impairment when the use of an audible calculator is necessary for everyday calculations and post-school success. This accommodation may be used on all mathematics tests when the required conditions for this accommodation have been met. Eligible students should receive this accommodation using a talking calculator with earphones. In the event earphones are not available for the talking calculator, the student must be tested in an isolated area.

I   Student Reads into Auditory Recorder and Plays Back Immediately for Comprehension

Test Administrators must verify the circle for **Special Accommodation I** is darkened on the answer document to signify that the student used this accommodation. *Test Administrators must confirm that the student has met the required conditions for use of this accommodation and verify that the circle for 504 Service Plan or the number of hours that the student receives special education services is darkened on the answer document.*

Special Accommodation I may be used on all TCAP Assessments by students with an IEP or 504 Service Plan indicating consistent use throughout the student's educational program. This accommodation is effective for students when reading fluency is on grade level and difficulty in reading comprehension is documented. Special Accommodation I may be useful in situations where Accommodation D is not permitted (i.e., EOC English I and Gateway Language Arts Tests).

Eligible students must receive this accommodation under the following conditions:

1. Ensure that student has a blank tape and tape recorder.

2. The student must be tested during the same testing session as other students.

3. The student must be tested in an isolated area in which students who do not need the accommodation cannot hear the student's speaking or playback of the tape.

4. Extended time limits may be determined by the student's IEP Team or 504 Review Committee.

5. Only the student may read into the audio recorder.

6. The student may read only internal test instructions and items into the audio recorder to be played back immediately for response.

7. Student's responses to his/her recording of test items must be marked on the answer document provided for that test. If the student is answering directly in the test booklet, ensure that responses are transcribed onto the answer document.

2003–2004 English Language Learner (ELL) Accommodations

All students are expected to achieve the same high standards in Tennessee. The State of Tennessee English Language Learners (ELL) Testing Policy states:

> "The purpose for including our student population of English Language Learners in our Tennessee Comprehensive Assessment Program is to help ensure that children who are limited English proficient, including immigrant children and youth, attain English proficiency, develop high levels of academic attainment in English, and meet the same challenging State academic content and student academic achievement standards as all children are expected to meet."

There are NO exemptions of ELL students from any State assessments.

ELL status must be determined by the IDEA Proficiency Test (IPT). A score of less than English Proficient on any subtest qualifies students as ELL. School districts must document and determine accommodations each year, based on individual needs and abilities.

The following is a list of approved accommodations provided for English Language Learners in State assessments and may be used, as indicated, on the EOC and Gateway Tests.

Incorrect, incomplete, or illegible information will result in inaccurate student data, will delay test processing, and may have a negative impact on final reports. Fill in only one circle in each column.

❏ Ensure student demographic information is properly marked.

○ use No. 2 pencil to make dark solid marks that fill the circle completely
○ make no stray marks
○ marking more than one circle in each column will invalidate the coding
○ erase changes completely

❏ Code student demographic information on the answer documents.

1 **NAME:** Print the student's full legal name (LAST, FIRST, and MIDDLE INITIAL) in the spaces provided. If there are not enough spaces for any name, print only as many letters as there are spaces. Fill in the corresponding circle below each letter. If the letter space is blank, fill in the empty circle at the top of the column under that letter space.

2 **SYSTEM, SCHOOL, AND TEACHER:** Names must be printed in the appropriate spaces. For private schools, system name should be the same as school name.

Make sure the students complete this information.

Say **Read the directions on the back of the answer sheet. Here are some important points to remember as you take the test. Read each question carefully. Fill in the circle on the answer sheet that matches the answer you choose for each question. Fill in the circle completely with heavy and dark marks. If you want to change an answer, completely erase the mark and fill in the circle of your new answer choice. Remember to read all the directions carefully. You should attempt every item on the test.**

When you come to the word *STOP* you have finished the test. When you have finished, you may check your answers. Then sit quietly until everyone has finished.

Are there any questions?

Answer any questions the students have about the directions on taking the test.

Say **On the back of the answer sheet, find Number 1. Be sure to begin marking your answers here. Open your test booklet to page 1. You may begin.**

Gateway Tests are untimed.

When all students have completed the test,

Say **This is the end of the test. Put down your pencil and close the booklet. Sit quietly while the test materials are collected.**

Collect all test materials.

IMPORTANT: As you collect the test materials, make sure the correct Version is marked on the answer document.

SECTION VII: POST-TEST PROCEDURES

Group Information Sheet (GIS)

Coding Instructions

The Group Information Sheet (GIS) provides data that will appear on reports. It is essential a complete and accurate GIS be placed on top of each stack of answer documents whose scores are to be reported together. **Incorrect, incomplete, or illegible information will result in inaccurate group reports, will delay test processing, and may have a negative impact on final reports. GISs precoded with school specific data must not be interchanged between schools or systems.**

❏ Ensure GIS information is properly marked.

  ○ use No. 2 pencil to make dark solid marks that fill the circle completely

  ○ make no stray marks

  ○ marking more than one circle in each column will invalidate the coding

  ○ erase changes completely

  ○ do not fill in circles beneath blank boxes

❏ Keep the following points in mind when preparing the GIS.

  ○ note that some information may have been either pre-printed or blocked out

  ○ all answer documents must be placed under a GIS

  ○ answer documents to be destroyed should **not** be placed under a GIS

  ○ if completing a blank GIS, use a pre-coded GIS to ensure information is identical for processing

❏ Complete GIS information.

  1 TEACHER NAME: Print teacher's last name, first name, or middle initial in the boxes. Fill in the corresponding circle below each letter.

  2 SCHOOL NAME: The school name may have been pre-printed. If using a blank GIS, print the school name exactly as it appears on a pre-printed GIS. If pre-printed forms are not available, System Testing Coordinator must contact Evaluation and Assessment for correct coding information.

  3 NUMBER STUDENTS TESTING: Print in the boxes the number of students whose answer documents are grouped with the GIS and fill in the corresponding circle below each number. Single- or double-digit numbers must be preceded by zero(s).

  4 GRADE: The grade has been precoded as "ungraded." Due to the nature of the Gateway and End-of-Course Tests, the grades of the individual students tested will vary.

  5 SPECIAL CODES: This has been precoded with the system and school identification numbers.

  6 TEACHER SOCIAL SECURITY NUMBER: The teacher's Social Security Number must be filled in accurately. Use columns L through V (columns O and R should be left blank). Marking more that one circle in each column will invalidate the coding.

  7 CONTENT AREA: In BLUE or BLACK ink, indicate the content area being tested.

  8 ORGANIZATION NAME: This information indicates the assessment being tested. Place Gateway Mathematics, Gateway Science, and Gateway Language Arts answer documents behind a GIS with Tennessee Gateway. Place answer sheets for Math Foundations II and English I behind a GIS with Tennessee End-of-Course. (Using an incorrect GIS will delay processing.)

School/Group List (SGL)

Completion Instructions

The School/Group List (SGL) provides a comprehensive list of all GIS forms for each school. Use the SGL to cross reference information from the GIS forms and to verify the number of answer documents to be scanned/scored. **Incorrect, incomplete, or illegible information may result in inaccurate reports and will delay test processing.**

❏ Keep the following points in mind when preparing the SGL.

○ note that some information may have been pre-printed

○ if a teacher/administrator/group has more than one GIS with answer documents to be scanned/scored, the information for each set should be listed separately

○ SGL forms may be photocopied, if needed

○ for Gateway/End-of-Course, each content area **must** be listed on a separate SGL (**combining content areas on an SGL will delay processing)**

❏ Complete the SGL information.

1 **District/Element Name:** May be pre-printed. If not, print the system name in the space.

2 **School:** May be pre-printed. If not, print the school name in the space provided.

3 **Area or Region:** May be pre-printed. If not, print the system number on the line provided.

4 **School Number:** May be pre-printed. If not, print the school number on the line provided.

5 **Contact Person:** Print the Building Testing Coordinator's name and telephone number, including area code.

6 **Teacher:** List each teacher/group by the name shown on the GIS. **The name should be spelled and written exactly as it is on the GIS. Note**: If a teacher has multiple GIS forms, list each separately on the SGL. Distinguish sections by labeling with "A," "B," etc., or "one," "two," etc. **Make sure it is exactly the same on the GIS.**

7 **Grade:** Leave blank.

8 **Number Tested:** For each group, write the number of student answer documents. This number should match the corresponding GIS.

9 **Content Area:** One SGL should be used per content area per assessment. Document the content area in the space above "Comments," (e.g., Gateway Mathematics).

Guidelines for Handling RI/RITC Materials for Regional Scanning/Processing

☐ 1. See Section VIII, Administration Anomalies, for information regarding appropriate use and handling of RI/RITC forms.

☐ 2. Open each Answer Sheet Envelope; remove RI/RITC form with affected answer documents.

☐ 3. Photocopy both sides of the related answer document(s) and attach to system copy of RI/RITC form.

☐ 4. Review RI/RITC and determine appropriate resolution. If document is to be processed normally or nullified, return the original answer document(s) to the Answer Sheet Envelope for scanning.

☐ 5. **Call Mary Taylor (615) 741-0720 for verification before resolving RI/RITC with nullify or void.**

☐ 6. Note the action taken on the top copy of the RI/RITC. Be sure to sign the top copy.

☐ 7. Place original copies of the RI/RITC with the copy of the answer document in the RI/RITC Envelope. Keep a copy of the RI/RITC for system records.

☐ 8. If the test is to be **VOIDED**, the **ORIGINAL** answer document(s) should be attached with a **PAPER CLIP** to the RI original and copies in the envelope. **NOTE: This would be a very rare occurrence and TDOE approval must be obtained to void a student answer document.**

☐ 9. E-mail Mary Taylor at mary.e.taylor@state.tn.us with **RI/RITC** resolutions. Include Testing Coordinator name, system name and number, and any pertinent RI/RITC information. **SEND THIS INFORMATION EVEN IF YOU HAVE NO RI/RITC ISSUES! Quick Score Reports will not be sent until this has been received.**

☐ 10. Fed-Ex or Priority Mail the RI/RITC Envelope to:

Mary Taylor
Evaluation and Assessment Division
Tennessee Dept. of Education
7th Floor Andrew Johnson Tower
710 James Robertson Parkway
Nashville, TN 37243-0375

☐ 11. **Do not send RI/RITC Envelopes to the warehouse or take them to the Regional Scanning Sites.**

☐ 12. If there are RI/RITC issues involving nullification or voids, a review of the RI/RITC forms must be completed before the Quick Score Report will be sent. **DO NOT WRITE VOID OR NULLIFY ON ANY ANSWER DOCUMENT!**

Processing Definitions

- Process Normally—Test will be scanned and included in all reports as if no incident occurred
- Nullify—Test will be scanned but will show on reports as "nullify. " Score will not reflect on system data
- Void—Test will not be scanned and no record of test will exist—rarely done since this does not provide a record of student's opportunity to test

NOTE: Any Breach of Testing Security Report forms submitted to the System Testing Coordinator should be returned to the Evaluation and Assessment Division in the RI/RITC Envelope. See Section I Test Security for procedures on handling any security issues.

Preparing for Regional Scanning

☐ 1. Use containers other than the original shipping boxes to bring materials to the Regional Scanning Sites (original shipping boxes should be reserved for return of used/unused materials).

☐ 2. Gather all materials to be taken to the Regional Scanning Site.
  A) all SGLs in the same order as the Answer Document envelopes
  B) all Answer Document envelopes, grouped by content area, in order with lowest school number on top to highest on bottom
  C) Home School envelopes
  D) Large Print and Braille envelopes
  E) Class Rosters

☐ 3. Place materials in boxes to take to Regional Scanning Sites.
  A) Large Print and Braille envelopes on bottom
  B) all Home School envelopes (with Gateway Mathematics on top, then Gateway Science, then Gateway Language Arts on bottom) on top of Large Print and Braille envelopes
  C) Gateway Language Arts Answer Document envelopes on top of Home School envelopes
  D) Gateway Science Answer Document envelopes on top of Gateway Language Arts envelopes
  E) Gateway Mathematics Answer Document envelopes on top of Gateway Science envelopes
  F) all ITMs on top of Gateway Mathematics
  G) all SGLs on top of ITM materials in same order as Answer Document envelopes
  H) Class Rosters in the same order as the Answer Document envelopes

☐ 4. Verify appointment with Regional Scanning Site.

Preparing for Shipment

Notice: All test materials must be returned to the Tennessee Test Distribution Center no later than **one week** following the test administration. The System Testing Coordinator is responsible for arranging the pickup of test materials **by the same company** that delivered them. Contact the Evaluation and Assessment Division at (615) 741-0720, if there are any problems packing materials or arranging for pickup.

☐ 1. Locate the return address labels, which were packed in Box #1 of each school's test materials.

☐ 2. **Do not remove identifying labels from any boxes.**

☐ 3. Assemble the materials to be returned in the following order, top to bottom:
  A) Shipping Order Form on top
  B) used test booklets
  C) unused test materials
  D) ancillary materials

☐ 4. Make sure the school label in the lower right corner and the test label in the lower left corner on the box match the materials to be enclosed.

☐ 5. Pack all used, unused, and ancillary materials **by school**, in the same boxes in which they were originally received.
  A) if the original shipment boxes cannot be reused, or if additional boxes are used
    (1) print "TCAP Gateway" in lower left corner on the top of the new box
    (2) print system/school names and numbers with box count (e.g., 3 of 10) in lower right corner on the top of the new box

SECTION VIII: ADMINISTRATION ANOMALIES

Absentees

All students who are enrolled in related courses must be accounted for in testing materials. If a student is not present to take the test on the initial administration or make-up day(s), an answer document with the ABSENT circle darkened must be completed.

BEFORE TESTING

❑ 1. All applicable personnel must have been trained and have instructions for the handling of absent students.

❑ 2. Ensure all personnel understand students who are present, refuse to take the test, or leave during the test administration without completing the test cannot be counted absent.

DURING TESTING

❑ 1. Develop a list of students who missed a test and submit it to the Building Testing Coordinator with test materials, per instructions in this manual.

❑ 2. An answer document must be completed for all students who are absent for the **entire** test.

❑ 3. Code the student demographic data on the answer document according to instructions for coding student demographic information (see Section V, Student Demographic Information).

❑ 4. Answer documents for absent students are to be included under the appropriate Group Information Sheet (GIS) with other completed answer documents.

AFTER TESTING

❑ 1. If a student takes a make-up test use the answer document that has been completed.

❑ 2. Ensure that the ABSENT circle is erased completely and place the answer document under the appropriate GIS.

❑ 3. If a new answer document is used, remove the answer document with the ABSENT circle darkened from under the GIS and place under an Inactive Test Materials form.

❑ 4. Ensure that the student does not have two answer documents to be scored.

Make-up Testing

Plans should be made to allow all students to make up any tests not attempted during the regular test session. Make-ups should be administered within four school days of the initial test date.

BEFORE TESTING

- ❑ 1. Plan a school make-up testing schedule to complete make-up testing within four school days of the initial test date.
- ❑ 2. Identify and contact students who need to make up a test(s).
- ❑ 3. Schedule students listed on the Absentee List to make up a test(s).
- ❑ 4. Gather materials needed to administer the test, e.g., test booklet, answer document, *Test Administration Manual*.

DURING TESTING

- ❑ 1. Establish a quiet secure place for the administration of the make-up tests.
- ❑ 2. Code or help students code the Student Demographic Data on the answer documents, according to instructions in the *Test Administration Manual*.
- ❑ 3. Administer the test adhering to test directions and time limits defined in the *Test Administration Manual*.

AFTER TESTING

- ❑ 1. Utilize the Test Administrator's Checklist for instructions on handling testing material procedures, as applicable.
- ❑ 2. Coordinate with the Building Testing Coordinator for appropriate placement of the make-up test materials within other used answer documents and materials.
    - A) ensure all absent students **who were unable to take a make-up test** have a completed answer document with the ABSENT circle darkened under the appropriate Group Information Sheet (GIS) in the stacks of completed answer documents
    - B) ensure all students **who have taken a make-up test** have the answer document containing their responses under the appropriate GIS; ensure that the ABSENT circle has been completely erased
    - C) ensure all students **who have taken a make-up test** and who had an answer document with the ABSENT circle darkened in the stacks of answer documents **do not have two answer documents**
    - D) if students **who have taken a make-up test used a new answer document** and also have an answer document with the ABSENT circle darkened in the stacks of answer documents, remove the answer document that **does not contain responses** and place it under an Inactive Test Material form

Inactive Test Material (ITM)
(Replaces Defective and Damaged Material Form)

> Only material to be destroyed should be placed under this form. Documents attached to an Inactive Test Material (ITM) form are inactive and are not to be scored. The ITM is a single sheet form and may be copied as needed. A separate form should be submitted for each incident type per grade/content area for each school.

Answer documents should be considered inactive for the reasons listed on the form **only**. If an answer document contains responses, the responses and student demographics must be transcribed to a new answer document before placing the document to be destroyed under this form. When completed, the ITM and related test materials should be paper banded separately from other test materials. **References to "Absentee Form" mean an answer document with the "Absent" circle marked.**

The following test materials **should not** be included under ITM:
- Braille and Large Print test materials (Return these test materials per shipping instructions and place the **transcribed** answer document under the appropriate Group Information Sheet [GIS].)
- Test booklets with only student names or random marks (Place them with used test materials.)
- Used writing prompts or directions (Place them with used test materials.)
- Test booklets or answer documents with manufacturing defects (System Testing Coordinator **must** contact the State for further instructions.)
- Writing folders with responses, separated at perforation (Place them together under the appropriate GIS, in order.)
- Unused, pre-coded Student Group Lists and GISs (Place them with used test materials.)

❑ Test Administrator Responsibilities
  ○ do not write comments on answer documents
  ○ identify any answer documents, test booklets, or Absentee Forms to be included under ITM
  ○ notify Building Testing Coordinator of any significantly damaged or contaminated (e.g., vomit, blood) documents for review
  ○ complete ITM, **sign**, and paper band with any affected answer documents or test materials
  ○ use only paper for bands (adding machine tape works well)
  ○ return paper-banded ITM to Building Testing Coordinator

❑ Building Testing Coordinator Responsibilities
  ○ do not write comments on answer documents
  ○ ensure materials under ITM are those documented on the form
  ○ verify use of form corresponds to allowed reasons only
  ○ **sign** completed forms
  ○ ensure each duplicate answer/absentee document under an ITM has a corresponding document under the appropriate GIS
  ○ ensure only paper has been used for bands (adding machine tape works well)
  ○ pack and return paper-banded ITM to System Testing Coordinator per instructions

❑ System Testing Coordinator Responsibilities
  ○ do not write comments on answer documents
  ○ review ITM for appropriate use, accurate completion, and **sign**
  ○ make copy for system use
  ○ return paper-banded ITM per specific test instructions (see Section VII, Return Procedures)

SECTION IX: TROUBLESHOOTING

If this happens…..	Do this:
Test materials do not arrive by the specified date.	Contact the Evaluation and Assessment Division at (615) 741-0720.
Inadequate quantities of test materials or ancillary materials are received.	Contact the Evaluation and Assessment Division. Document any shortages on your copy of the Shipping Order form.
Large Print or Braille versions are not received.	Check all boxes. These materials are packaged independently. If the tests have not been received within two days, contact the Evaluation and Assessment Division.
Test materials are defective or damaged.	Contact the Evaluation and Assessment Division immediately. Return defective test materials separately per Evaluation and Assessment instructions.
Additional test materials are needed on the testing date.	Building Testing Coordinators should first contact the System Testing Coordinator. If the quantity of materials is still insufficient, the System Testing Coordinator should contact the Evaluation and Assessment Division.
One or more test booklets and/or manuals are not accounted for after test administration.	Contact test administrators to see if the missing materials can be located. Note the shortage in the "Missing" column of the Shipping Order form and complete a **Breach of Testing Security Report** form.
Not all used and unused answer documents are accounted for after test administration.	Check test booklets first to see if any answer documents were placed inside them. If answer documents are not found, contact the test administrator. Note the shortage in the "Missing" column of the Shipping Order form and complete a **Breach of Testing Security Report** form.

NOTE: A completed **Breach of Testing Security Report** form must be returned to the Evaluation and Assessment Division to explain any discrepancies on the Shipping Order form for test booklets and answer documents not being returned. This form should be sent in the RI/RITC envelope directly to the Evaluation and Assessment Division.

Return these materials to the Tennessee Test Distribution Center.
